Matilda J. Gibson Memorial Library
FY20 Open Access Annual Report

CURRENT YEAR   *PREVIOUS YEAR*

Instructions

Due: August 7, 2020

A printed version of this form is available at http://www.statelibraryofiowa.org/go/oa

Report the number of items checked out to customers from each public library, contracting city, or participating academic library. A few things to look for on the form:

1. Circulation to branch library cities should be reported under the main library. For example, the city of Asbury is a branch of the Dubuque County Library. All circulation to residents of Asbury should be reported as Dubuque County Library.
2. Contracting cities are listed on the form. Any transactions to patrons from those towns should be reported under the contracting city rather than the home library. Do not report transactions to residents from cities that contract with your library.

Use the definitions listed below to determine if Open Access customers and transactions are eligible.

Local Library Jurisdiction: The jurisdiction is the area for which a library is funded to serve. This includes:

1. Any city that funds the public library including the city where the library is located, and any contracting cities.
2. Any unincorporated jurisdiction that funds the public library including the unincorporated portions of the county where the library is located, and any unincorporated portions of other counties.
3. Any participating college, university or community college library.

Eligible Patron:

Must be a resident of Iowa; live outside the local library jurisdiction; and meets one of the following criteria:

1. Lives in a community that provides a public library.
2. Lives in an unincorporated area that provides, or contracts for, library services.
3. Lives in a community that contracts for library services.
4. Attends a participating Iowa public or private university, college, or community

   college.

A customer is not considered an eligible Open Access customer if they are a:

1. Resident of your city.
2. Resident of a city that contracts with your library for library service.
3. Rural resident of your county or other county that contracts with your library for library service.
4. Resident of a city that does not have a public library and does not contract with a library for library service as required by Iowa Code Section 256.69.
5. Resident from outside of Iowa.

Eligible Transactions:

1. Physical items in all formats except for equipment.
2. Items must be from your collection and for use outside the library. Items packaged together as a unit and checked out as a unit, are one transaction.
3. Playaways or similar devices.
4. Renewals of eligible items as listed on lines A to C above.
5. Do not count automatic renewals as an eligible transaction.

Ineligible Transactions - Do not count the following items as Open Access:

1. Downloadable audio, video, e-Books or other electronic items.
2. Database use.
3. Equipment including laptops, tablets, projectors, game consoles, eReaders, wireless hotspots, or other types of equipment.
4. Automatic renewals.

Rural residents:

1. A library can claim Open Access circulation to rural residents from other counties, but may not claim circulation to residents of its own county or other county that contracts with the library for library service.
2. To report Open Access circulation to rural residents (outside your own county), you need to determine the local library for that resident. Below are suggestions on which library to choose. Any of these options are acceptable. The important thing is that you choose one local library only:

   a. If the patron has a rural address from a city with a participating public library, count that as the local library
   b. If the patron has a rural address from a city without a participating public library, choose any participating public library in the county to be the local library
   c. Choose the largest library in the county
   d. Choose the library in the county seat

3. If the customer is from rural Dubuque, Scott, or Woodbury counties, report them under their respective county library system. City public libraries in these three counties are allowed to count rural residents from their own county as eligible for Open Access.

Contracting Cities:

1. Contracting cities are incorporated cities that do not have a public library and contract with the public library in another city.
2. Report circulation to residents of contracting cities on the line for that contracting city. All contracting cities are now included on the form.
   NOTE: Residents of cities that contract with your library for service are not eligible for Open Access reimbursement and should not be reported.
3. Transactions by residents from an incorporated city that is not listed on the form are not eligible for Open Access reimbursement.

If you have any questions about the eligibility of a customer or transaction, please contact Scott Dermont at scott.dermont@iowa.gov, or 515-281-7573

Do not include Interlibrary Loan (SILO) totals on this form

A Libraries

Do not include Interlibrary Loan (SILO) amounts on this form.

A1   Ackley - Ackley Public Library
